OMAR ELHFNAWY

Cloud Engineer
Cairo, Egypt | +20 1066268058 | omar.elhfnawy@outlook.com | LinkedIn

PROFESSIONAL SUMMARY

Cloud-focused BIS student with prior hands-on experience through a Cloud Engineering internship, supported by strong foundations in networking, Linux, operating systems, and virtualization, with a clear focus on cloud infrastructure, deployment, and scalability in real-world environments. In addition, gained leadership and business experience as a Business Development Head and founder of a marketing agency, developing strong ownership, communication, and execution skills. Also has working knowledge of programming with exposure to .NET full-stack development, supporting a solid understanding of how applications are built and integrated within cloud systems. Currently seeking a Cloud Engineering internship to deepen practical experience in cloud platforms and DevOps practices while contributing to building scalable and reliable systems.

EDUCATION

Bachelor of Business Informatics | Helwan University

Expected Graduation: 2029 | GPA:3.4

EXPERIENCE

August Real Estate — Property Consultant *Jan 2026 – Present*

- With experience at a well-known real estate company, I have successfully worked across all major destinations in both Primary and Resale markets. Throughout my career, I consistently exceeded my sales targets, while also generating my own qualified leads through my background in Digital Marketing & Tech.
- Driving residential and investment property sales across key destinations including New Cairo, New Administrative Capital, North Coast, Sheikh Zayed, and Ain Sokhna.
- Managing the full sales cycle through cold calling, fresh lead generation, direct sales, and broker networks, while conducting investment consultations, qualifying prospects, handling objections, strategically repositioning clients toward more suitable opportunities, and successfully closing high-value transactions.Assisting in deploying and managing cloud environments including compute, storage, and networking services.

IT Gate — Cloud Engineer Intern *Aug 2025 – Dec 2025*

- Supporting the design and architecture of scalable and secure cloud infrastructure.
- Assisting in deploying and managing cloud environments including compute, storage, and networking services.
- Implementing infrastructure automation and CI/CD concepts to support DevOps workflows.
- Monitoring cloud systems to ensure performance, reliability, and availability.
- Troubleshooting cloud infrastructure, networking, and system-level issues.
- Working with virtualization, system administration, and networking concepts.
- Applying networking, virtualization and system administration knowledge including CCNA, MCSA, Docker, Linux, Ci/Cd, K8s, AWS and Azure services.

Lokaly Egypt — Founder & CEO *Dec 2026 – Present*

- Founded and leading Lokaly, a platform focused on connecting local businesses with digital opportunities.
- Defining the company vision, product strategy, and long-term business roadmap.
- Identifying market opportunities and validating ideas to build scalable solutions.
- Building partnerships with local businesses and strategic stakeholders.
- Overseeing operations, growth strategy, and brand positioning.
- Driving innovation by integrating technology with real business needs in the local market.

Enactus — Head of Business Development (student activity) *Sep 2025 – Jan 2026*

- Identifying and researching potential partnership and sponsorship opportunities.
- Contributing to the development of growth strategies for projects and initiatives.
- Supporting the process of turning innovative ideas into scalable and impactful solutions.
- Collaborating with cross-functional teams to align business opportunities with project goals.
- Analyzing market needs and identifying opportunities for sustainable project growth.
